## VIII. Professional Phone Tips

### 1. Answer promptly, and with a smile

A prompt answer helps an organization build and maintain a reputation of efficiency. And even though a caller can't see you, the friendliness of a smile still comes through.

### 2. Identify yourself and/or department

The caller is entitled to know they have reached the right party.

### 3. Add prestige to both the called person and the organization

When answering another's telephone, respond with "\_\_\_\_\_'s office" (not "line" or "desk").

### 4. Avoid cliff-hanger statements

Callers are then forced to "pump you" for more information. Instead, follow negative statements with positive ones, i.e., (negative) "I'm not sure; (positive) but I will find out for you."

### 5. Make only those promises which you can keep yourself

Say "May I ask him to return your call?" or "If you'd like to leave your name and number, I'll see that he gets your message," rather than "Can I have him return your call?"

### 6. Explain absences by saying only

"She's away from the office right now." Immediately follow up with a positive statement of when the caller will be able to reach him/her, (not where); "however, she did expect to be back around 2 p.m."

### 7. Keep a pen and paper nearby

Make a note of the caller's name and use it. Callers like the personal touch of hearing their own name.

### 8. Take a complete message

On a printed message form, fill in all appropriate blanks.

### 9. Avoid screening calls

When screening is necessary, screen for identification not elimination. Upon accepting a screened call, always greet the caller by name.

### 10. Sympathize with the complaint caller

Express a willingness to help.

### 11. When you must interrupt a caller

Use the phrase, "I understand" or "I see" rather than "excuse me." Continue immediately with your positive ideas on how to help the caller.

### 12. Place a caller on hold only if they are able to hold

Give the caller a choice, not a command. Tell them how long they may be expected to wait.

### 13. Use the hold feature provided on your phone

Confidential office conversations can easily be overheard.

### 14. Transfer calls carefully

Know the proper transfer procedure for your particular phone system. Inform the extension of the reason for the transfer before completing it.

### 15. Express appreciation for the call

Acknowledge the caller's appreciation, when given. End the call with a professional phrase of goodbye plus the caller's name.

### 16. Let the caller hang up first

If you placed the call, hang up gently.
