There are three circumstances in which students can reduce the amount of the fall payment. The first is when students who have been awarded/renewed Mount Allison scholarships and bursaries; please refer to your scholarship/bursary letter for more information regarding disbursement. The second is when students have proof of the amount of the Canada Student Loan they will receive. The third is when students have an external sponsor who will be invoiced by the University (you will need to provide the sponsorship letter); this category does not include external scholarships and bursaries.

When the amount paid has been reduced because students will receive government student loans or have external sponsorships, temporary registration status will be granted. **It is the student’s responsibility to ensure that government or sponsorship funding is received by the University by September 30.** If the University has not received the funds by the date, students must make temporary financial arrangements through some other source to meet their financial obligations to the University or contact the Financial Aid & Awards Counsellor in the Registrar’s Office financialaid@mta.ca to discuss bridge financing.
