LOGGING INTO MOODLE AND SELF-ENROLMENT

Introduction
This document will teach you how to log in to your Moodle account and how to enroll yourself in a Moodle course.

Logging into Moodle
Mount Allison’s Moodle website can be accessed at moodle.mta.ca. You will be taken to webpage where you will be able to log in to your Moodle account. Enter your user and password, which are the same as the first part of your e-mail (before the @mta.ca) and your e-mail’s password (it’s also the same login that you use for Connect). Then click on “Log in”.

Once you log in to Moodle, you will be taken to a page called your Dashboard, where you will have an overview of your courses, course categories, your calendar, and other important information.

Self-enrolment
You will automatically be enrolled in any academic courses that you register for on Connect, however some Moodle courses are opt-in so you must enroll yourself.

To enroll yourself in a course, first go to that course’s page. Then, click on the “Enrol me” button to join the course. Once you enroll yourself, you will be able to view the course’s page.

Two Moodle courses you may want to enroll yourself in are the Orientation page and the Student Resources page.

Click here to access to Orientation page, or from your dashboard, scroll down to “Course categories” and click on the link titled “Academic Support”.

You will be taken to a list of Moodle courses for academic support. Click on the course titled “UO Together, Wherever!”.

Then click on the “Enrol me” button.

Click here to access the Student Resources page, or from your dashboard, below your calendar on the right side, there is a box labelled “Important Information”. Under “Technical Assistance”, click on the first link for students.

Then click on the “Enrol me” button.
